

HI ! I'M ANDY YOON !

I'm from Seoul, South Korea. My Korean name is Eun Kyung but do call me whatever you please! I currently go to Dartmouth College, striving to become a Computer Science major modified with Digital Arts! My favorite hobby is playing lacrosse and I'm a member of the Dartmouth Women's Club Lax team and the Korean National team :)

Honestly speaking, my favorite design application is pen and paper. But after taking CS24, I am very interested in Maya. Also, I am starting to learn how to use Adobe Illustrate and Sketch! I do coding as well in languages such as Python, Java, and C. As a member of DALI, I am excited to work on projects as a group and to apply my design on real solid creations. My ultimate goal is to become a super shiny slick unicorn.

LOOK ! STYLE GUIDE

#FFFFFF

#0CACS2

#000000

#F28633

I was aiming for a design that represented who I am messy and all-over-the-place. I intended the page to look like I'm writing a note to a friend that I chose SF Scribbled Sans as the main font. The character on the left is one of my creations!
